OlyLife THZ Tera-P90+

USD 1,500

Multi-Technology Wellness System

OLYLIFE THZ TERA-P90+

OlyLife THz Tera-P90+ is designed to provide a comprehensive and customizable relaxation experience.

Combining PEMF (Pulsed Electromagnetic Field) and frequency-based technology with specialized wellness attachments, the P90+ brings together the main device, Frost Age Beauty Device, and Revitaluxe Massager in one integrated system for relaxation, comfort, beauty, and everyday self-care.

Functions

Main Device

PEMF & Terahertz Technology

Designed to support relaxation and general wellness as part of a balanced wellness routine.

Frost Age Beauty Device

RF & EMS Technology

Combines Radio Frequency (RF) and Electrical Muscle Stimulation (EMS) technology for a beauty-focused self-care experience.

Revitaluxe Massager

Magnetic Fusion, EMS & TENS + Red Light

Combines multiple massage and wellness technologies for a relaxing, targeted self-care experience.

Product Features & Technology

PEMF Technology

Pulsed Electromagnetic Field technology designed to support relaxation and general wellness.

Terahertz-Based Technology

Frequency-based technology integrated into the main Tera-P90+ device.

RF & EMS Technology

Integrated into the Frost Age Beauty Device for a beauty-focused self-care experience.

Magnetic, EMS, TENS & Red Light Technology

Integrated into the Revitaluxe Massager for a targeted wellness and self-care experience.

20-Level Intensity Control

Offers adjustable intensity levels for a more personalized wellness experience.

Upgraded Foot Pedal Design

Designed to accommodate users up to shoe size 47.

Infrared Remote Control

Provides convenient wireless operation during sessions.

Enhanced Safety Features

Designed with fuse protection as an additional safety feature.

Disclaimer: OlyLife products are wellness devices designed to support general well-being. They are not intended to diagnose, treat, cure, or prevent any disease. Product features and availability may vary by market. Final pricing will include shipping and any applicable taxes.

OlyLife Vitality Wand

USD 600

Frequency-Based Wellness Device

- Terahertz Technology
- Multi-Action Wellness Support
- Portable & Easy to Use

OLYLIFE VITALITY WAND

The Vitality Wand is designed to provide a relaxing and comfortable wellness experience through frequency-based technology and controlled airflow.

Featuring ultra-long wave frequency technology, gentle warmth, and air pressure massage, the device is engineered to support comfort and relaxation as part of a self-care routine. Its intuitive one-click operation and adjustable temperature settings allow for a personalized and convenient session experience.

The included intelligent stand enables hands-free use, offering added ease during use.

Functions

- **Supports Healthy Microcirculation**
- **Supports Detoxification**
- **Supports Removal of Cold and Dampness**
- **Helps Dredge Meridians**

Product Features & Technology

PEMF Ultra-long Waves

A type of low-frequency alternating magnetic field that penetrates deeply into the body.

Terahertz Waves

A unit of frequency, 1 THz (1000 GHz), corresponds to a wavelength ranging from 3 to 3000 micrometres.

Thermal Energy Transfer

It helps to relieve discomfort, relax muscle, alleviate irratation and increase tissue flexibility.

Air Massage

A technique that uses controlled airflow to apply uniform and consistent pressure to the body. This method offers standardized, flexible service with persistent application, ensuring hygiene.

Spring Water SWMAX

USD 2,000

Intelligent Personalized Water System

Purify · Mineralize · Hydrogen-Rich · Instant Heating

CLEANER WATER A HEALTHIER YOU

SPRING WATER SWMAX

SW(Spring Water)-MAX is OlyLife's intelligent personalized water system, combining purification, mineralization, hydrogen-rich water, instant heating, and intelligent dispensing within a connected wellness ecosystem.

Through Smart Bracelet and OtraLive connectivity, SW-MAX brings user data into the experience to support more personalized hydration for a healthier lifestyle.

Functions

Purification	Helps remove impurities for cleaner, better-tasting water.
Mineralization	Adds essential minerals to support balanced, great-tasting water.
Hydrogen-Rich Water	Delivers hydrogen-rich water as part of your daily wellness routine.
Instant Heating	Provides hot water on demand for greater convenience.
Intelligent Dispensing	Dispenses the right water temperature and volume for your needs.

Technology Inside

Advanced Purification · Mineralization Technology · Hydrogen Generation · Instant Heating · App Control · Smart Bracelet Integration · Drawer-Style Filter Replacement · Intelligent Water System

A Smarter, More Personalized Experience

SW-MAX connects with the Smart Bracelet and OtraLive App, where your wellness data is analyzed to support a more personalized water experience. This connection allows SW-MAX to adapt to your needs and support your hydration journey over time.

Smart Bracelet → OtraLive App → Data Analysis → SW-MAX → Personalized Water Experience

OlyLife Skyline SL-6

USD 500

Advanced Material Innovation

Daily Comfort & Protection

Breathable & Lightweight

OLYLIFE SKYLINE SL-6

Skyline Smart Cloud-Sense Sanitary Napkin is designed to enhance daily comfort and menstrual support through intelligent material innovation.

Unlike traditional products that focus solely on absorption, Skyline integrates advanced breathable layers, magnetic material components, and far-infrared ceramic and graphene materials to promote dryness, airflow, and a comfortable wearing experience. Engineered for softness, adaptability, and everyday ease, Skyline fits seamlessly into daily life while helping you feel fresh, confident, and supported throughout the day.

Smart Material Technology

Magnetic Induction Layer

Incorporates advanced material engineering designed to support a comfortable wearing experience.

Far-Infrared Ceramic & Graphene Materials

Designed to help maintain warmth and comfort through material-based thermal properties.

Graphene Conductive Framework

Enhances overall material performance and supports consistent comfort during wear.

Comfort & Protection Design

Ultra-Thin Absorbent Core

Designed for fast absorption and moisture locking while maintaining a light, barely-there feel.

Suspension Fit Structure

Adaptive design helps maintain positioning and reduce friction during movement.

Breathable Bamboo Fiber Surface

Soft, skin-friendly bamboo fibers promote airflow and help keep the surface dry and comfortable.
